

Solar Aviation Lights

Product Description

We are leading manufacture of Single LED Aviation Lamp. It's use on high rise building , tower, crane, chimney, wind mill, mountain, for signal warning for aircraft and helicopters or any flying thing.

Advantages:

- Eco-friendly
- Conserves energy

Applications:

- High rise structures
- Towers

Electrical & Mechanical Specifications

Frequency	50-60 Hz
Lighting Type	LED
IP Rating	IP65
Load Power (Wattage)	4 Watt
Solar Power (Wattage)	10 Watt
Material	Aluminium Alloy
Lux level	At 1 Meter 32 Lux
Long life LED	1,00,000 Hours (12Hr/Day = 22 Yrs)
Input Voltage	180 - 280V AC or 40 - 58V DC
Led Number	60 Nos are used in 12 circuit parallel
Operating temperature	-100 to 600 Degree C
Weight	1680 gms
